#### A. Basic Information

| Course Title and code:                     | Polymers (PTP-301)                       |  |
|--|--|--|
| Program on which this course is given:     | Ph.D. Program                            |  |
| <b>Total Credit hours:</b>                 | 2  |  |
| Lectures:                                  | Tutorial/Practical:                      |  |
| Academic Level                             | Postgraduate                             |  |
| Academic year                              | 2020/2021 - First semester               |  |
| Name of lecturers contributed to the       | 1. Prof. Dr. Osama A. Soliman            |  |
| delivery of this course                    | 2. Asst. Prof. Dr. Marwa Salah El-Dahhan |  |
| Course co-coordinator:                     | Prof. Dr.Osama A. Soliman                |  |
| External evaluator:                        | Prof. Dr. Yossri Elsaeed                 |  |
| <b>Date of Department Council Approval</b> | 15/5/2022                                |  |
| <b>Date of Faculty Council Approval</b>    | 5/2022                                   |  |

#### **B. Statistical Information:**

No. of students attending the course: 1

No. of students completing the course: 1

**Exam Results** 

Passed No.: 1 percentage: 100% Failed No.: - percentage: 0%

**Grading of successful students (%):** 

| $\mathbf{A}$ + | 100 % | A | - | <b>A-</b> | - |
|----------------|-------|---|---|-----------|---|
| <b>B</b> +     | -     | В | - | В-        | - |
| C+             | -     | C | - | C-        | - |
| D+             | -     | D | - | D-        | - |

# **Postgraduate Studies**

#### **C. Professional Information:**

#### 1. Course teaching:

| No. | Topics actually taught  |
|-----|---|
| 1.  | Polymers introduction: Fundamentals of polymer structure.                           |
| 2.  | Classification of polymers.   |
| 3.  | General characteristics of polymers.  |
| 4.  | Main methods and processes to synthesis polymers.                                   |
| 5.  | Polymers as rheology modifiers.   |
| 6.  | Special properties of polymers, case studies and detailed examples of applications. |

#### Topics taught as a percentage of the content specified:

| √ > 90 % | 70 - 90 % | < <b>70 %</b> |
|----------|-----------|---------------|
|          |           |               |

#### **Lecturers commitment of the course content:**

| √ > 90 % | 70 - 90 % | < 70 % |
|----------|-----------|--------|
|          |           |        |

#### **Coverage of exam topics to course content:**

| √ > 90 % | 70 - 90 % | < <b>70 %</b> |
|----------|-----------|---------------|
|          |           |               |

#### 2. Used teaching and Learning Methods:

| Lectures:                       | <b>Using Power point presentations</b>                                    |  |
|---------------------------------|---|--|
| Practical Training/ Laboratory: | -   |  |
| Seminar / Work shop:            | -   |  |
| Class Activity:                 | Tasks required to develop students self-learning skills.                  |  |
| Case Study:                     | Different case studies.   |  |
| Other assignments / home work:  | Internet search and Research assignments to design formative assignments. |  |

#### 3. Student Assessment:

| a. Method of Assessment     | Percentage of total |
|-----------------------------|---------------------|
| Written examination         | 90%                 |
| Oral examination            | 10%                 |
| Practical / laboratory work | -                   |

### **Postgraduate Studies**

| Semester Work                                   | -                       |  |
|---|-------------------------|--|
|   |                         |  |
| b. Members of examination committee:            |                         |  |
| 1. Prof. Dr. Osama A. Soliman                   |                         |  |
| 2. Asst. Prof. Dr. Marwa Salah El-Dahhan        |                         |  |
|   |                         |  |
| c. Role of external evaluator (If any):         |                         |  |
| 1. Review of course items.                      |                         |  |
| 2. Suggestion of new topics.                    |                         |  |
| 3. Offering new learning techniques.            |                         |  |
| 4. Revision of Exam and related assignment      | nts.                    |  |
| 4. Facilities and Teaching Materials            |                         |  |
| Totally adequate                                | $\checkmark$            |  |
| Adequate to some extent                         |                         |  |
| Inadequate                                      |                         |  |
| List any inadequacies:                          |                         |  |
| 5. Administrative constraints                   |                         |  |
| List any difficulties encountered:              |                         |  |
| Not found                                       |                         |  |
|   |                         |  |
| 6. Student evaluation of the course:            |                         |  |
| List any criticisms and response of course team |                         |  |
| criticisms                                      | response of course team |  |
| Not found                                       |                         |  |
| 110t Ionna                                      |                         |  |
|   |                         |  |
|   |                         |  |

# 7. Comments from external evaluator(s) (if exists) and response of course team:

| Comment                           | Response |
|-----------------------------------|----------|
| The evaluator praises the course. |          |

### 8. Course enhancement suggestions:

Progress on actions identified in the previous year's action plan:

| Action                  | Completed | Not completed | Why not completed? |
|-------------------------|-----------|---------------|--------------------|
| Ex: Upgrade course note |           |               |                    |
|                         |           |               |                    |

9. Action plan for academic year 2022 - 2023:

| Action Required                          | Person responsible | Completion Date |
|--|--------------------|-----------------|
| Updating references and course contents. | Course coordinator | 2022            |

|                           | Name                                  | Signature |
|---------------------------|---------------------------------------|-----------|
| <b>Course Coordinator</b> | Prof. Dr. Osama A. Soliman            |           |
| Head of Department        | Prof. Dr. Irhan Ibrahim Abu<br>Hashim |           |
